## Queen Victoria to George 6th > Queen Victoria > Embossed Issues

### Embossed Issues

Between 1847 and 1854, the British postal system witnessed the introduction of embossed postage stamps. The embossed stamps featured a portrait of Queen Victoria surrounded by an intricate lattice design, produced using a unique embossing technique rather than the traditional flat printing.

The embossing created a raised effect on the paper, making the stamps not only visually appealing but also adding an extra layer of security against forgery. The Queen Victoria Embossed Issues had a relatively short period of use, being replaced by perforated stamps as technology advanced.

These stamps are highly sought after by collectors due to their unique design and limited production period. They represent a crucial phase in the evolution of postage stamps, showcasing the experimentation and innovation during the early years of philately.

### Margins

Embossed issues are listed according to how many clear margins exist around the embossment. Below you will be able to select from 1 to 4 margin examples, as well as "cut to shape" where the margins have been trimmed off completely.

### Victorian Official Overprints

Stamps overprinted with "OFFICIAL" were introduced in the early 1880s, with the purpose of assisting governmental accountants in tracking the postal spending of various state departments - hence the overprinted "OFFICIAL" was accompanied by "INLAND REVENUE", "OFFICE OF WORKS", "ARMY", "GOVERNMENT PARCELS" or "BOARD OF EDUCATION" accordingly. Clearly this is not an exhaustive list of government departments, as many other government departments used Perfins instead of overprints.

## Mulready Covers

The Mulready envelope, named after the artist William Mulready who designed it, was introduced in 1840 along with the Penny stamps. The envelope was part of Hill's vision for postal reform, aiming to streamline and improve the efficiency of the postal system.

Mulready envelopes were intricately designed with elaborate illustrations on both the front and back. The front often featured an allegorical scene called "Britannia Shielding the Figure of Hope," symbolizing the benefits of postal reform.

The Mulready envelope faced criticism and ridicule from the public. Many found the design to be overly complex, and the central vignette was humorously likened to a tombstone or a mausoleum. Due to the public's negative response and the practical issues with the design, Mulready envelopes had a short lifespan. They were officially withdrawn from use after only a few months.

Today, Victorian Mulready Covers are highly sought after by philatelists and collectors due to their historical significance and the brief period of use.

## Queen Victoria to George 6th > King Edward VIII

### King Edward 8th Stamps

Welcome to our King Edward VIII Stamps Collection, a portal to an intriguing period in philatelic history. King Edward VIII's brief reign in 1936 marked an unprecedented chapter in the British monarchy. Edward Albert Christian George Andrew Patrick David, as King Edward VIII was formally known, was a monarch with a passion for change and simplicity.

The single design that came to fruition reflects this: a simple pencil drawing of the King adapted from a photographic portrait. The regal framing of past monarchs is cast aside, with minimal text and only a small crown in the top corner to hint at the King's royal stature.

# We Buy GB and Channel Isles Stamps.

## *Mint GB decimal stamps*

We pay 50% of the face value for stamps. Minimum purchase is £30 face. We do not buy any mounted mint or un-gummed unused stamps. In the case of Miniature Sheets, it is the value of the stamps, not the value printed on the sheet.

## *Mint Channel Islands decimal stamps*

Decimal mint stamps in sets are worth 35% of the face value and single values or odds are worth 30%. Sets must be kept together, not grouped by face value. These prices include Presentation Packs.

## *GB decimal Presentation Packs*

Decimal mint stamps in presentation packs are worth 50% of the face value of the stamps. Pre-decimal packs will be quoted on a case by case basis.

## *GB Decimal Booklets*

Decimal mint stamps in booklets are worth 50% of the face value of the stamps. Pre-decimal booklets will be quoted on a case by case basis.

## *GB First Day Covers*

We will pay 20p a FDC from 1967 to 1995, 25p a FDC for 1996 to 1999, 50p a FDC for 2000 to 2003, £1.00 for 2004 to date. This is only for full set covers, non hand addressed (typed). We pay twice the above for unaddressed FDC's. They must be neat, unmarked, no ruffled corners and tidy and this does not apply to single or part stamped covers that have no value.

## *GB Coin Covers*

We pay 50p per cover above the face value of the coin. Medal coins with no value are 50p.

Please do not post anything to us without prior agreement. Please contact us with a detailed written list of the items you wish to sell.

Payment can be made by Cheque or PayPal transfer.

Once agreed, we will provide a postal address for you to send your items to. Using a secure postal service with sufficient insurance is your responsibility. We accept no liability for items lost or damaged in transit to us.

The Machin Definitive, designed by Arnold Machin, was first issued on 5th June 1967 to replace the previous Wilding Design.

These original issues were pre-decimal, but the Machin definitive design has stood the test of time, with several proposals to replace the Machin design being rejected by the Queen over the decades.

The Machin design has been featured on many innovative stamps over the years, seeing elliptical perforations, U-shaped slits, double-headed designs, iridescent overprints and the recent addition of barcodes.

## Machin Definitive GB Stamps.

Many of the NVIs in this category often have a similar appearance, for example the same colour and phosphor coating. However, these stamps have slight variations when viewed closely, due to the fact that they are printed by either Enschede, Harrison, Questa or Walsall.

The following is for your information to understand which stamps are printed by which printer.

**Harrison** - 1445, 1446, 1447, 1448, 1511, 1512, 2079

**Walsall** - 1449, 1450, 1515, 1516, 1516c, 2077

**Questa** - 1451, 1451a, 1451ab, 1452, 1513, 1514, 1514a

**Enschede** - 2078

**UM = Unmounted Mint.**

**VFU = Very Fine Used - Note that all Self-Adhesive VFU stamps will be provided on-piece, as self-adhesive stamps dissolve when soaked**

X Number stamps were issued from 1971 to 1996. X Value Machins feature a solid colour background, the Machin head, and a decimal face value.

X Number Machins were printed by either Harrison (X841-X995), Waddington (X996-X999), Questa (X1000-X1024) or Walsall (X1050-1058).

A number of the X Value Machins feature one or two imperforate edges, where there is a straight cut edge rather than perforations.

# Queen Elizabeth II Definitives > GB Machin Definitives > V Barcode Machins

**UM = Unmounted Mint (Mint Never Hinged)**

**VFU = Very Fine Used. Note that all VFU stamps will be provided on-piece, as self-adhesive stamps dissolve when soaked.**

In March 2021, Royal Mail piloted their first-ever barcoded postage stamp; V4500. In 2022 they announced that they would be replacing all non-barcoded Machins with new barcoded stamps, and that from 2023 non-barcoded Machins would no longer be valid for postage.

Barcoded Machins are 50% larger than traditional Machin definitives. Similar to previous U numbered Machins, the new V Barcodes feature U-shaped slits, iridescent overprint, sometimes source codes, year codes, and self-adhesive backing paper.

Each stamp's 2D barcode, also known as a data-matrix, is unique. The barcode is added in a second stage of the printing process; the main design of the stamp is printed in Gravure, whilst the barcode is later added using Digital printing.

## King Charles III Definitives

Martin Jennings is a highly acclaimed British sculptor known for his public art installations and monuments. Born in 1957, Jennings studied at the Central School of Art and Design in London and went on to establish his own studio in 1983. His work has been exhibited in galleries and public spaces across the UK and internationally, and he has received numerous commissions for high-profile sculptures.

It is no wonder then that Jennings was commissioned to create the effigy of King Charles III, which features on the latest British Definitive Stamps - the "Jennings Definitives". The Jennings Head design was altered for use on GB Stamps, originally featuring a crown and intended for coinage. His Majesty showed a preference for a more contemporary image of himself, and no royal emblems or jewellery are featured on his new stamps.

The Jennings Definitives maintain the innovative feature of Barcodes, introduced on the late Queen Elizabeth Barcoded Machins.

## GB Stamp Booklets > 1. GB Prestige Books

### Prestige Stamp Booklets

GB Prestige Booklets are not only books containing stamps, they are small story books. Each Prestige Booklet Pane contains commemorative or Machin stamps, and an accompanying piece of related art or snippet.

Many of the early Prestige Booklets contain only Machin stamps that are not related to the theme of the booklet, whereas modern Prestige Books often contain commemorative themed extras which are not issued anywhere else.

# We Buy GB and Channel Isles Stamps.

## *Mint GB decimal stamps*

We pay 50% of the face value for stamps. Minimum purchase is £30 face. We do not buy any mounted mint or un-gummed unused stamps. In the case of Miniature Sheets, it is the value of the stamps, not the value printed on the sheet.

## *Mint Channel Islands decimal stamps*

Decimal mint stamps in sets are worth 35% of the face value and single values or odds are worth 30%. Sets must be kept together, not grouped by face value. These prices include Presentation Packs.

## *GB decimal Presentation Packs*

Decimal mint stamps in presentation packs are worth 50% of the face value of the stamps. Pre-decimal packs will be quoted on a case by case basis.

## *GB Decimal Booklets*

Decimal mint stamps in booklets are worth 50% of the face value of the stamps. Pre-decimal booklets will be quoted on a case by case basis.

## *GB First Day Covers*

We will pay 20p a FDC from 1967 to 1995, 25p a FDC for 1996 to 1999, 50p a FDC for 2000 to 2003, £1.00 for 2004 to date. This is only for full set covers, non hand addressed (typed). We pay twice the above for unaddressed FDC's. They must be neat, unmarked, no ruffled corners and tidy and this does not apply to single or part stamped covers that have no value.

## *GB Coin Covers*

We pay 50p per cover above the face value of the coin. Medal coins with no value are 50p.

Please do not post anything to us without prior agreement. Please contact us with a detailed written list of the items you wish to sell.

Payment can be made by Cheque or PayPal transfer.

Once agreed, we will provide a postal address for you to send your items to. Using a secure postal service with sufficient insurance is your responsibility. We accept no liability for items lost or damaged in transit to us.
